

Graduate Research Examinations Policy

Schedule A – Masters by Research Thesis Grading Schema

Section 1 - Background and Purpose

This Schedule sets out the assessment criteria to be used when grading a Masters by research thesis at La Trobe University.

Section 2 – Grading Schema

Description (Masters by Research)	Grade
The candidate has demonstrated an exceptional level of competence with respect to the Masters by research course learning outcomes at La Trobe and other evidence of achievements such as:	90–100% Outstanding
 a. clear evidence of considerable original work of high quality, including analysis or other evaluation; or 	
 the implementation and experimentation phases of the discovery have been completed at a very high standard; or 	
 the research solely based on the thesis has been accepted for publication in a journal of high standing. 	
The candidate has demonstrated a very high level of competence with	85–89%
respect to the Masters by research course learning outcomes at La Trobe and other evidence of achievements such as;	Excellent
 a. clear evidence of considerable original work of high quality, including analysis or other evaluation; or 	
 the implementation and experimentation phases of the discovery have been completed; or 	
 the research solely based on the thesis has been accepted for publication in a quality peer-reviewed journal. 	
The candidate has demonstrated a high level of competence with	80–84%
respect to the <u>Masters by research course learning outcomes</u> at La Trobe and other evidence of achievements such as:	Very Good
a. the thesis provides evidence of the candidate's ability to
