### **Responding to Sexual Harm**

(24) In an emergency or in circumstances of immediate danger on-campus, call:

- a. Police or Emergency Services (24 hours): 000
- b. and then Campus Security(24 hours): 03 9479 2222

(25) Guidance on how to respond appropriately when a person discloses they have experienced sexual harm can be found [here](#).

(26) Individuals who have experienced sexual harm are encouraged to seek information and support from Safer Community. Support and advice can also be sought from external agencies.

(27) Individuals may choose to either disclose or formally report any incident of sexual harm to Safer Community or the Police. This decision will determine the action the University may take:

- a. disclosing the incident is where an individual confides in someone else that they have been the victim of sexual harm, in order to receive resources and support;
- b. formally reporting is where a student or staff member provides a formal account or statement about the sexual harm to the University. As a result, an internal investigation may commence to determine if the conduct

constitutes a breach of any relevant instruments, including the [General Misconduct Statute 2009](#) (students) or [Code of Conduct](#) (staff).

(28) The University may have to investigate a report of sexual harm (with or without the complainant's participation) to comply with its legal obligations, for example in circumstances where it considers the risk to others to be sufficiently serious.

(29) Students, staff and any third party can disclose or report any incident of sexual harm, including recent or historical incidents.

(30) In circumstances where the complainant or respondent are both a student and staff member, the process outlined in Section K of the [Workplace Behaviours Policy](#) will apply.

(31) In circumstances where the respondent is not a La Trobe University student or staff member, or in the event of historical incidents, the University will provide support to the complainant but may be unable to investigate the alleged conduct. Where the respondent is a visitor to the University, the matter will be referred to relevant third parties where appropriate (for example, where a visitor is acting on behalf of an employer).

### **University Response to a Disclosure**

(32) Where students or staff disclose sexual harm to the University, reasonable steps will be taken to:

- a. provide information about support services available to them, and the reasonable measures that may be implemented;
- b. outline the options available to help them determine any next steps they may wish to take;
- c. ask if they wish to proceed with either a formal report to the University or a report to the police or other external agency;
- d. offer assistance in any other way appropriate in the circumstances.

(33) A disclosure will generally not lead to further action by the University, unless required by law, for example the University has reason to believe there is a serious threat to someone.

(34) To determine its obligation to act, the University may consider:

- a. making reasonable enquiries (including its incident records) to determine whether there may be a current or future risk to the safety and wellbeing of other members of the University community;
- b. taking action to protect the safety and wellbeing of the University community including implementing protective measures;
- c. reporting the matter to an external organisation (such as a placement provider) where the complainant was on University business; and
- d. making a report to the Police.

### **University Response to a Formal Report**

(35) Individuals who have reported sexual harm to the University may choose not to name the other party when making a report. Anonymous reports can also be made to Safer Community, however the University's ability to respond to anonymous reports may be extremely limited.

(36) Individuals are not prevented from seeking relevant support from other sources throughout this process.

(37) Further action can only be taken by the University in response to a report where the respondent is a University student or staff member. Where the respondent is a visitor to the University, the matter will be referred to relevant

third parties where appropriate (for example, where a visitor is acting on behalf of an employer).

(38) Where a formal report is made, the University will endeavour to ensure that the respondent is afforded procedural fairness, meaning decisions are made:

- a. only after the respondent has been given an opportunity to know the allegations against them in sufficient detail to respond and has been given a reasonable opportunity to respond to those allegations; and
- b. by an unbiased decision maker who has given genuine consideration to any response provided by a Respondent.

(39) The University will address a report of sexual harm as promptly as possible, acknowledging that the University may be required to take or delay taking particular steps on the advice of Police.

### **Report made by, or about, a student**

(40) Where the respondent is a student Safer Community will consider the report and determine further action required in accordance with the [Student Conduct Management Policy](#).

(41) For students residing in University-operated accommodation, action may also be taken under the Rules of Residence.

### **Report made by, or about, a staff member**

(42) Where the respondent is a staff member Safer Community will refer the matter to the Chief People Officer or delegate who will consider the report and decide if an investigation will be conducted to determine whether, on the balance of probabilities, there has been a breach of the relevant University statutes, policies and/or the La Trobe University Enterprise Agreement(Enterprise Agreement) or any successor agreement.

## **Interim Measures**

(43) Upon receiving a disclosure or report of Sexual Harm, Safer Community will consult with the Deputy Director, Integrity and Investigations and the Director, Wellbeing & Inclusion(students) or the Chief People Officer (staff) or their delegate to determine the need for any measures to protect the safety and wellbeing of all parties and, where relevant, protect the integrity of any investigation.

(44) Principles of procedural fairness will be afforded wherever practicable, and the complainant and respondent will be advised of any interim measures that will or have been put in place by the Deputy Director, Integrity and Investigations or the Chief People Officer, or their delegate.

(45) The complainant or respondent may request interim measures be put in place by writing to the Deputy Director, Integrity and Investigations or the Chief People Officer, or their delegate. Such requests will be considered by the Deputy Director, Student Integrity and Investigations or Chief People Officer and where reasonable and practicable will be accommodated.

(46) Interim measures are available regardless of whether an individual chooses to make a formal report to the University. The Deputy Director, Integrity and Investigations or Chief People Officer, or their delegate will determine whether interim measures are reasonable and should be implemented.

(47) Interim measures are not a penalty or sanction and do not indicate the University has concluded that a breach has occurred. Neither a criminal conviction nor an investigation need be completed before interim measures are put in place.

## **Report made by, or about, a student**

(48) Where the complainant and/or respondent is a student, interim measures may include but are not limited to:

- a. changes to class timetables;
- b. temporary remote learning arrangements;
- c. academic adjustments;
- d. no contact orders;
- e. for students residing in University operated accommodation, a temporary reassignment to another residential location on or off campus.

## **Report made by, or about, a staff member**

(49) Where the complainant and/or respondent is a staff member, interim measures may include but are not limited to:

- a. adjustments to working arrangements;
- b. temporarily standing down a staff member;
- c. any measures listed in the Enterprise Agreement.

## **Withdrawing a Complaint**

(50) A person is entitled to withdraw a complaint at any time. The matter will then be treated as a disclosure and will generally not lead to further action unless required by law, for example the University has reason to believe there is a serious threat to someone (see 'University response to a disclosure' above for more information).

## **Investigations and Disciplinary Proceedings**

(51) The University cannot determine whether a criminal act has been committed. However, the University can determine whether the alleged conduct (even if it could also be potentially criminal in nature) has breached its policies, Statutes or the Enterprise Agreement.

(52) Any investigations and/or disciplinary proceedings will be conducted/overseen by Integrity and Investigations or the Chief People Officer (staff) in accordance with relevant University instruments - including but not limited to the [General Misconduct Statute 2009](#) (students), the [Student Conduct Management Policy](#) (students) and any other relevant policies; and including but not limited to the [Code of Conduct](#) (staff), and/or the Enterprise Agreement.

(53) If the University takes action under University statutes, policies and procedures, the complainant will be notified of the outcome as appropriate.

(54) Should the University determine that sexual harm has occurred, disciplinary action up to and including termination of employment/enrolment (as the case may be) may be taken against the respondent.

## **Reporting to Police**

(55) A complainant may or may not wish to report the incident to the Police. This is their right.

(56) When a complainant does not want to make a formal report to the Police and the alleged perpetrator is a student or staff member, the Deputy Director, Integrity and Investigations or the Chief People Officer may consider reporting circumstances to the Police. In considering whether to make a report to the Police, they may consider:

- a. the wishes of the complainant;

- b. advice of University Legal Services;
- c. advice of Safer Community and other subject matter experts including relevant information about the known/observed behaviour of the alleged perpetrator related or unrelated to the matter at hand;
- d. evidence of a clear and unacceptable risk to the University or general community; and
- e. the course of action that is in the best interest of protecting the wellbeing and safety of the University or general community.

(57) A University report to the Police does not oblige the complainant to pursue Police or legal proceedings.

(58) The University will advise the complainant of a decision to make a report to the Police and will only disclose the identity of the complainant with their prior consent where the University has reason to believe there is a serious threat to someone, or as otherwise required by law.

(59) Where a formal Police investigation is conducted, any internal University investigation may be suspended until the external investigation is completed.

## **Review of University Response to a Report of Sexual Harm**

(60) Any decision about the outcome of a disciplinary matter will need to follow the relevant appeal or review process under the [General Misconduct Statute 2009](#), [Code of Conduct](#), [Enterprise Agreement](#), or any other relevant University statute or policy.

(61) A student who seeks review of the University response or handling of a report of sexual harm may lodge a formal complaint which will be handled in accordance with the [Student Complaints Management Policy](#) and managed by the University Ombudsman.

(62) Students are also eligible to lodge a complaint with the [National Student Ombudsman](#). For further information on complaints considered by the [National Student Ombudsman](#), go to [Making a complaint | National Student Ombudsman \(NSO\)](#).

(63) A staff member who seeks review of the University response or handling of a report of sexual harm may progress a complaint in accordance with the [Workplace Issue Resolution \(Staff\) Procedure](#).
