

Assessment Schedule - Grades and Administrative Codes

Section 1 - Background and Purpose

(1) This Schedule provides:

- a. the official record of the current grading scheme used by the University to report on student performance in personal records, academic transcripts, graduate statements, or other official statements of results such as for Tertiary Admissions Centres;
- b. the methodology for calculating overall indicators of student academic performance such as Weighted Average Mark (WAM).

(2) The official record of grades is to be reproduced annually in the University Handbook.

Section 2 - Scope

(3) This Schedule applies to all award courses and non-award credentialed courses, regardless of mode or location.

Section 3 - Schedule

WEIGHTED AVERAGE MARK (WAM)

The Weighted Average Mark for a Progression Period is calculated as follows:

WAM = the sum of (Numeric mark for a subject x Credit Points for that subject) of each subject attempted / Total Credit Points

For example:

Numeric mark	Credit points	Calculation
83	15	83 x 15 = 1245
69	15	69 x 15 = 1035
75	30	75 x 30 = 2250
95	15	95 x 15 = 1425
74	15	74 x 15 = 1110
67	30	67 x 30 = 2010
Total	120	9075

The WAM in this example is 9075 (the sum of the numeric mark for a subject x credit points for that subject) divided by 120 (total credit points for those subjects), which is 75.63.

(4) If an assessment outcome has no numeric mark, then it cannot be used in the total WAM calculation except for an NS (Nothing Submitted) or KN (Late Withdrawal with Academic Penalty) grade, where the default numeric mark value of zero will be used in the calculation.

(5) A WAM cannot be calculated if a student has one or more incomplete grades (e.g., X or W) within the Progression Period.

Conversion of Temporary Administrative Codes

(6) Where a temporary Administrative Code is to be awarded pending the outcome of a supplementary assessment the Subject Coordinator will allocate a mark and the appropriate Administrative Code of either:

- a. SAHE, if the additional assessment is to take the form of a centrally conducted examination (maximum grade possible is 50D); or
- b. SAHA, if the additional assessment is to take the form of a non-centrally managed examination or other

assessment (maximum grade possible is 50D); or

c. W if the grading schema for a subject is an ungraded pass or fail.

(7) If the additional assessment is failed or not completed, then the final grade for the subject will be an ungraded fail (F – no mark).

(8) Administrative Codes must be replaced by Assessment Grades when the result for the subject is finalised and according to key dates published by the Student Administration Division.

(9) Extensions to the deadline for applying an Assessment Grade may only be granted by the Dean or nominee or, in the case of centrally managed courses or subjects, an equivalent senior academic staff member.

(10) Administrative Codes still in place after published deadlines without an approved extension will be converted by SAD into Assessment Grades in accordance with the following Conversion Chart:

Administrative Code	Assessment Grade	Numerical Result
SPA, SPE	NRA	No result
SAHA, SAHE	F	No result
W	NRA	No result
**	NRA	No result
